That's how much I want you  
Like a good brew, like a fine wine  
You improve with time and I want you  
I want you  
That's how much I want you

Baby  
It's no secret that I want you  
We can have fun if you want to  
I see it in your eyes, it's like you're hypnotized  
Your scoping got you open cause you want me  
You told me that you have a man though  
All you got to do is let his hand go  
I want you rain or shine, you know your heart is mine  
No matter the weather we can stay together  
You feel the energy, advanced chemistry  
Outcome is heavenly  
Let yourself go and lady follow me  
If you focus, believe me, off it will pay  
Life could be wonderful, we could take it day by day  
Not to much to say except I'm known to lead the way  
And I got my eye on you

I want you  
That's how much I need you

Baby  
Listen, it's no secret that you're beautiful  
But fair warning I'm a handful  
Since I'm popular, at times I pop my gun  
Paparazzi paint pictures of my like I'm Gotti  
Photo posted in print on page six  
Murder be the case when I'm caught up in the mix  
My life is very deep, in the streets we play for keeps  
In that world my name's the reaper  
Known to many ghettos as a celebrity  
One of the last dons around the town, an army  
surrounding me  
I need to know, can you hang?  
Sometimes pistols bang, howl at the moon  
When I hunt I display fangs

I got my eye on you

That's how much I need you

Baby

Listen, it's no secret that we're soulmates

Just give into your heart and feel great

Why should we play this game?

I know you feel the same, fortune turn to flame

Baby can you handle fame?

The media probe me cause they don't have no shame

Via satellite around the world they know your name

Live everyday like it's our last yet so groovy

People watch us both like a movie, action

Dangerously in love like Mickey and Mallory

Cause it's to the death when picking a companion

Cautiously I move, I don't let nothing rattle me

So what's it going to be, cause I got my eye on you

That's how much I need you

It's no secret that I want you

That's how much I need you

It's no secret that I want you

That's how much I want you
