[Verse 1]

Try to stop me from my destiny there's so many
They wanna see me broke down and out without a
penny
They come with microphones and with these beats I
gotta crush 'em
They come with guns and from the streets you know I
gotta bust 'em
A lot of nigga run they mouth and just talk about it
But when them guns are banging nigga gotta be about
it
You get shot up, you gotta try to keep composure
Don't lose you focus, no dozing, your eyes don't close
them
Realize it's just a test and I am chosen
Rise up, show I'm the best and keep going
Shot up, two collapsed lungs but still flowing
Shoot up, six foot three I'm still growing
Heat it up, got ya block hot at night it's glowing
Beat it up, I wear these niggaz down and it' showing
Slow it up, speed it up, nigga I did it all
I fucked with life and death, I seen them rise and fall
I took 'em all to war, with money on my brain
Played with emotions, scars and memories show pain
Severely wounded but still I function
Losing in the game of life is not an option
This anger's not for those that's friends with me
This is for all my enemies, you motherfuckers
I destroy; get the fuck out my path you interfering with
me
Go against me nigga you don't want no dealings with
me
You try to be disrespectful stay some stupid shit
You don't understand who you fucking with
You don't understand where I get my power from
You don't understand nonbeliever doubt them
You don't understand what it's like to lose your spine
You don't understand what it's like to lose you mind
You don't understand open fire, filled with slugs
You don't understand losing everything you love
You don't understand what it's like not feeling

You don't understand I'm numb when I'm killing
You don't understand death when the trigger's pulled
You don't understand that life is so beautiful
You don't understand I'm homicidal, suicidal
You don't understand all I know is death and violence
You don't understand how I keep smiling
You don't understand when I'm smiling, I'm really
crying
You don't understand when I'm crying, I'm really
laughing
You don't understand when I laugh, I'm really angry
You don't understand when I'm angry, I start smiling
You don't understand you don't understand how I keep
on smiling

[Chorus]

You don't understand, you don't understand
All my friends please pray for me, I'm not stable
You don't understand
All my enemies stay the fuck away for me, I'm not
stable
You don't understand, you don't understand
All my friends please pray for me, I'm not stable
You don't understand
All my enemies stay the fuck away for me, I'm not
stable

[Verse 2]

Will I live to be an old man? I doubt it, maybe
I'm hell bound; before I go I'll save the babies
Feds lurking around me, yes I know you're watching
Evil army is coming for me, I hear 'em marching
My legs, they're gone, so no there'll be no running
Situation, gun in my hand, yes I face 'em
They hate me, my skin is black and hair nappy
I'm sad while living on planet but trigger happy
I'm mad, I'm screaming out "so whatcha want nigga"
Get at 'em, I do more than that, I get in 'em
Spit venom, shatter like glass, I go through 'em
He's smoking; fucking with me I gotta school 'em
I destroy; get the fuck out my path you interfering with
me
Go against me nigga you don't want no dealings with
me
You try to be disrespectful stay some stupid shit
You don't understand who you fucking with
You don't understand what it's like to be in chains
You don't understand what it's like to be a slave
You don't understand what it's like to burn in flames
You don't understand not knowing pain when there is
pain

You don't understand what it's like not feeling alive
You don't understand you want to die but you survive
You don't understand surviving but you're really dead
You don't understand that dead is only in your head
You don't understand what it's like to lose your halo
You don't understand I plot like I'm Roy Lamayo (?)
You don't understand you shouldn't act so fucking
rowdy
You don't understand I'll kill you and I hide you body
You don't understand your brother's brain blow in your
face
You don't understand the blood drip down your face,
you taste it
You don't understand you're gone; you're talking to the
devil
You don't understand like Spawn you ask the devil help
you
You don't understand fall from grace with broken wing
You don't understand one day you pay for everything
You don't understand one day you pay for everything
You don't understand you'll never hear those angels
sing

[Voice sample from a Godzilla movie]
(Guy 1) Look at it now; it's all over the place
(Guy 2) Yeah because it's lost it's control
