Angel thought he was better than man
So God shook him up and changed his plan
Broke his wing.No longer could he soar
Jumped off of cloud and...he fell to
Floor, thinking God took him to war
Not in heaven, 'cause the views he saw
Hell indeed, burning at the core of
Earth.Focus...escape this hell through
Birth.Pure vibration teleport to womb
Human form...born in June
As a man...hunger...pain consumed
Spanked on the ass, starts to cry
Welcome to life, you was born to die
Learn lessons through suffering
Progress...from struggling
Years to adjust to the vehicle he's in
Come across humans, get feelings for them
Different needs from each and the things they do
They are stressed.It affects him too
Temperature drops and the...world feels so
Cold.Tired start feeling his soul

So many died, felt the pain it caused
In 3D.Holograms get stuck on pause
Human life is I.Forgive him God.
As Ibliys cried wishing he could fly again
He could not remember why again
It was so important for him to better than all men
Better was a bitter sin
Being humble was the medicine
The elixir to fix his broken wing
Oh how he missed how the angels would sing
As Ibliys cried wishing he could fly again
Touched clouds in the sky again
Heaven once again
He heard a voice that said to try again
He heard a voice that said to try again
First you must learn man, Ibliys
Then flap your wings through time and space
Fly to me...all creations, all gifts
Transform to light and...uplift
Yourself.First learn man, Ibliys
Then flap your wings through time and space
Fly to me...all creations, all gifts
Transform to light and...uplift
Yourself.Uplift yourself
