

Tom Jordan "Come Home"

Visit "[Come Home](#)" on MotoLyrics.com

Looking outside my window
Don't know what I'll find
It's harder to see so clearly
With you on my mind
Sometimes I can feel you breathing
And I can't stay away
It's so hard to stop this feeling
I can't go another day

Where did you go
How don't you know
That I can't do this on my own for another night
So lets make it right
I've been on my own for far too long
So baby just come home

Mondays are even longer when you're not around
Without you it's like a love song without any sound
So please don't just walk away
Without you I'm not me
I'll do anything to make you stay
Cause you mean everything

Where did you go
How don't you know
That I can't do this on my own for another night
So lets make it right
I've been on my own for far too long

Where did you go
How don't you know
That I can't do this on my own for another night
So lets make it right
I've been on my own for far too long

So baby just come home
So baby just come home
So baby just come home
