Okay, I'm back.  
Now get your train off my track,  
Here's a little feed back for you.

This is how it is, skin for skin.

Stand up, stand up.  
It was just a little mix up.  
A place we had to fix up, right now.

This is how it is, skin for skin.  
Here comes memory, here she comes.

You say goodbye,  
You've finally felt your heart cry,  
You've finally felt your heart crack in 2.

This is how it is, skin for skin.  
Here comes memory, dancing in with a grim.

You make me crawl in paper skin,  
You've taken it all.  
Further along we gather within

Here comes memory, here she comes.

Okay, get back.  
You've finally felt your heart crack.  
You've finally felt your heart crack in 2.

This is how it is, skin for skin.  
Here comes memory, dancing in, with a grim.  
This is how it is, skin for skin.  
Here comes memory, here she comes, here she comes.
