

Tom Novy "Now Or Never (Extended Version)"

Visit "[Now Or Never \(Extended Version\)](#)" on MotoLyrics.com

Are you nervous? Do you care?
There's a lot of people out there
All you need is something new
How to get it, you know what to do

There's a party going on tonight
Gotta get there 'cause it feels so right
Gonna [Incomprehensible] somehow
There ain't nothing gonna stop you now

You want it, you need it
From now until forever, now or never
You know it, you show it
You're ready for whatever, now or never

You want it, you need it
From now until forever, now or never
You know it, you show it
You're ready for whatever, now or never

You want it, you need it
From now until forever, now or never
You know it, you show it
You're ready for whatever, now or never

Alright
Are you nervous, do you care?
You're on a mission out there
You go crazy, well tonight
You are traveling at the speed of light

Get on up and raise the roof with me
That's the way that it's supposed to be
We won't stop until the break of dawn
Gonna keep on moving on and on

You want it, you need it
From now until forever, now or never
You know it, you show it
You're ready for whatever, now or never

You want it, you need it

From now until forever, now or never
You know it, you show it
You're ready for whatever, now or never

You want it, you need it
From now until forever, now or never
You know it, you show it
You're ready for whatever, now or never

Alright, alright
Are you nervous, do you care?
There's a lot of people out there
Let's get crazy [Incomprehensible]
And we won't stop, give them on and on

You want it, you need it
From now until forever, now or never
You know it, you show it
You're ready for whatever, now or never

You want it, you need it
From now until forever, now or never
You know it, you show it
You're ready for whatever, now or never

You want it, you need it
From now until forever, now or never
You know it, you show it
You're ready for whatever, now or never

Now or never
Now or never
Now or never
Now or never
