### "Now Or Never"

Visit "[Now Or Never](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Are you nervous? Do you care?  
There's a lot of people out there  
All you need is something new  
How to get it, you know what to do

There's a party going on tonight  
Gotta get there 'cause it feels so right  
Gonna [Incomprehensible] somehow  
There ain't nothing gonna stop you now

You want it, you need it  
From now until forever, now or never  
You know it, you show it  
You're ready for whatever, now or never

You want it, you need it  
From now until forever, now or never  
You know it, you show it  
You're ready for whatever, now or never

You want it, you need it  
From now until forever, now or never  
You know it, you show it  
You're ready for whatever, now or never

Alright  
Are you nervous, do you care?  
You're on a mission out there  
You go crazy, well tonight  
You are traveling at the speed of light

Get on up and raise the roof with me  
That's the way that it's supposed to be  
We won't stop until the break of dawn  
Gonna keep on moving on and on

You want it, you need it  
From now until forever, now or never  
You know it, you show it  
You're ready for whatever, now or never

You want it, you need it  
From now until forever, now or never  
You know it, you show it  
You're ready for whatever, now or never

You want it, you need it  
From now until forever, now or never  
You know it, you show it  
You're ready for whatever, now or never

Alright, alright  
Are you nervous, do you care?  
There's a lot of people out there  
Let's get crazy [Incomprehensible]  
And we won't stop, give them on and on

You want it, you need it  
From now until forever, now or never  
You know it, you show it  
You're ready for whatever, now or never

You want it, you need it  
From now until forever, now or never  
You know it, you show it  
You're ready for whatever, now or never

You want it, you need it  
From now until forever, now or never  
You know it, you show it  
You're ready for whatever, now or never

Now or never  
Now or never  
Now or never  
Now or never
