I know what you say won't ruin my day
I know what you did don't care nowadays
I will not let you bring me down
I don't want you to be around
I will not let you waste my time
Erase and rewind

(2x)
You don't fool me any longer
You play games but I was stronger
It is over, I reacted
But it was so unexpected

You will never see me crying
All the love we had is dying
I tried so hard to protect it
To expect the unexpected

I will not let you bring me down
I don't want you to be around
I will not let you waste my time
Erase and rewind

You don't fool me any longer
You play games but I was stronger
It is over, I reacted
But it was so unexpected

You will never see me crying
All the love we had is dying
I tried so hard to protect it
To expect the unexpected

To expect the unexpected...
