Written by: Tom Petty

Black cloud on the sun  
I turn my collar up  
I walked from your door  
Out to McCCounty road

Oh yeah, what luck  
Time ain't been rough on us  
And right then oh boy,  
We hit the turning point

Three, four years or more  
My life was on the floor  
Blind faith hangin' in  
Hungry and tired of it

Oh yeah, bad luck  
They had taken over us  
And right then oh boy,  
We hit the turning point

She's had to follow me  
Up and down these empty street  
Whisky on her breath  
Trying to give the world a test

Oh yeah, bad luck they had taken over us  
And right then oh boy, we hit the turning point
