First you got your idea copyright  
That was in 1989,  
Now it's spreading to the satellite,  
You exercise your right divine,  
And now you control everything  
And now you control even me  
Sometimes I don't realise,  
Most people aren't aware of this

A zero sum of power,  
Every minute on the hour  
Is coming through the air,  
You fixate, you stare

I saw that video,  
Obama said "troops home from war"  
But it got edited,  
Fox news online cut the applause,  
They've got our power in their hands  
To supply lies that we demand,  
By taking no action,  
We pave a path of no return

Your eyes are stuck with glue,  
Fabricated by the demons of the ruling class,  
To the TV set in front of you  
Anti-adhesive smash that cast!  
Now there's no more USSR  
And now we'll hail to your empire,  
Walmart's coming to the UK  
It's already here it's ASDA
