Hold on Tonight
You sail away on the water of endless time
Fighting demons all around in your mind
I pray to God that it's not too late for you
You have so much right here left to do
I hope you do

Can't you see
You got me going crazy

So I promise you something true
More than broken words & hearts
I know leaving is all you're seeing
But it'd kill me too if you'd part
So can't you just hold on tonight
Yeah, hold on tonightâ€¦tonight

Life's too short to go home sooner than you have to
It's more than a game, it's your life you take
I hope you stay

Cause I love you
Yes I do

Yeah, I promise you something new
More than broken words & hearts
I know feelings are all your leaving
But it'd kill me too if you'd part
So can't you just hold on tonight
Can't you just hold on tonight
Yeah, hold on tonightâ€¦tonight

I love you more than life itself
I'll hold you when you need to be held
