When you say that you're in love whit me girl
There's nothing else that matters in this world
I tell myself to give you diamons and pearls oh yeh

Two people like us shouldn't be living alone
Lets come together so our love will be grown
Don't disagree I'll be turned into stone

I'm gonna take you higher
I'm gonna take you higher again n' again n' agin

Baby you'er the one you mean most to me
Nothing else matters baby can't you see
I always think about yohow god this can be

I do my best to give you all that I got
I'll be there even though you'er happy or not
I hope you finde you that I like you a lot

When you say that you're in love whit me girl
There's nothing else that matters in this world
I tell myself to give you diamons and pearls

I give you all my love and I give you my heart
If you promes me to stay
Give me hope n give me strength and hear vhat I'm
gonna do
Take you higher.higher.higher

When you say that you're in love whit me girl
A feeling came inside n' just cross my mind
Was it just to get that diamonds n pearls or was it only
me girl
