Woke up when the sun came out

Woke up when the sun came out  
Please, nobody shout  
Got a backache on the table, havin' fun last night  
My head fell off onto a tile and ended up a marryin a  
girl named Susan  
Gotta get it out of your mind (Gotta get it out of your  
mind)

Fell in love with the man  
The backseat down  
In a briefcase found  
Was a royal crown they stole last night  
My pets were tellin' dirty jokes  
I'm lying safe and sound in my neighbours grass  
Everybody's makin me laugh

Do you wanna dance with me?  
Take your clothes off (yeh)  
Chuck 'em in the sea  
Do wanna ave have a go at me?  
So i'd rather come away  
Your free to be what you wanna be

## CHORUS

It's all gone crazy ( crazy from the East and down to  
Mexico)  
It's all gone mad ( you live and got no stoppin as we  
can't let go)  
You see you're  
Crazy, crazy, everybody lazy  
Know it's getting better  
Always getting high  
Know it's getting better  
Always getting high  
You know it's getting better  
Cause it's always getting high to me

Woke up on the Eiffel Tower  
This is my finest hour  
Had an interview last Tuesday with the News of the

World  
Now you know im famous and i'm lonely  
And Susan got convicted in her Mama's dressing gown  
Do what you're doing in an English \*screech\*

Do you wanna dance with me  
Take your clothes off (yeh)  
Chuck 'em in the sea  
Dig your Rolls Royce out  
So they know your in  
I'd rather come away  
Your free to be what you wanna be

#### CHORUS

It's all gone crazy ( crazy from the East and down to  
Mexico)  
It's all gone mad ( you live and got no stoppin as they

Crazy, crazy, everybody lazy  
Know it's getting better  
Always getting high  
Know it's getting better  
Always getting high  
You know it's getting better  
Cause it's always getting high to me
