to see my self clearly  
is such a daunting task  
but i will face it dearly  
i just don't think i'll last.

Its time for me to take a step outside  
and determine why im this way and i'll never change I

Its time for me to find  
why im so inside.  
well its time for me to fly.

To see you clearly  
is so easy for me to do  
I just wish I could see me how you do  
Then everything would be brand new.

But its time for me to take a step outside  
and determine why im this way and i'll never change I

think it's time for me to find  
why im so inside.  
well its time for me to fly.
