These days are coming to an end
The world it waits
Impatiently for us
These moments just collided
Into one line
Looking back I wouldn't change a thing

We won't fall
No, we won't fall for you
What you do
We will grow
Yeah, we will grow from you
Oh from you

They say there's nothing more than
What were seeing
Life is a mirage and we are fools
They say that we must prepare to fail
I will keep fighting till I can't

We won't fall
No, we won't fall for you
What you do
We will grow
Yeah, we will grow from you
Oh from you (x2)

We won't fall, no we won't fall from you
We will grow, we will grow from you
These days are coming to an end \
