I've always been through live a searchin  
Never findin that pot of gold  
Maybe the rainbow stretches much too far  
Even my hopes and dreams untold

Well it's a day in the wet and the rain's pourin down  
Thinkin bout a woman and another distant town  
I got my mind on a woman down Texas way  
Thinkin more about her and the reasons I shoulda  
stayed

Chorus

Texas woman I love on you  
Nothin could ever change my way  
Texas woman you know my love is true  
I'll be back for you someday

Solos

My Texas woman's kind of special don't ya see?  
There ain't nobody love me quite like she can  
She's plain and natural like I want her to be  
She makes me feel like a hell of a man

Chorus x 2

Solos
