

Tommy Cash "Before I Found The Wine"

Visit "[Before I Found The Wine](#)" on MotoLyrics.com

Yesterday I had a future and I was happy
I had your love and the whole wide world was mine
I had money to spend and a woman who called me
darling
Yes but that was before I found the wine
Before I found the wine my life had meaning
There were happy days at my house all the time
I remeber when you told me I hung the moon and made
you sunhine
Yes that was before I found the wine
[guitar]
I wish that I could go back to your world
Hold you close to me and know that you are mine
And I wish that I could hear you say I love you
Just the way you did before I found the wine
Before I found the wine...
Yes but that was before I found the wine
