Folks sit around with their face in a frown and gape
about the way things they are
They're happy to receive but they hardly ever want to
give
Well I'm so tired of complaining so in the time
remaining
I'm gonna do my best to make the world a better place
to live
I'm gonna write a song that the whole wide world can
sing
It's gonna be about sunshine praise every living thing
It's gonna be about love the one thing the world needs
a lot more of
I'm gonna write a song that the whole wide world can
sing
[piano - ac.guitar]
All our fourfathers had only faith in God and they willed
to make the nation strong
So the old time religion could help 'em to find a better
way
We need more soul saving and a lot more people flag
waving
And there's no better time for us to start than today
I'm gonna write a song...
Let me tell ye I'm gonna write a song...
Everybody sing I'm gonna write a song...
