Oh I'm packin' all the loneliness I'm not leavin' any sad
regrets
I'll wash my mem'ries from hallways of your mind
And the way you should remember me is like a page of
history
Cause I'm leaving your world a better place to live
Walk through the roses in the garden before the
morning sun is shining
Where you gave me every reason I had to live
That ain't dew on the petal it's the tears I lost while
leaving
While leaving your world a better place to love

If you see a shadow along the highway that's just me a
going my way
Cause I'm too proud to show my face in the sun
And when evening coming on like a shadow I'll soon be
gone
Cause I'm leaving your world a better place to live
Walk through the roses in the garden...
