"Rise And Shine"

Visit "[Rise And Shine](#)" on MotoLyrics.com

Little children do not worry cause you still got lots of
time
There's no need in walking backwards turn around and
rise and shine
If your load always seems heavy and you're always left
behind
Pick yourself up from the ground and jump right back
and rise and shine
Rise and shine in the early morning shine your light off
through the day
Makes no difference what they tell you stand right up
and have your say
Cause the good Lord said he loved you and through
him you're strict you're fine
Even though the world may use you turn around and
rise and shine
[ac.guitar - trumpet]
Look at how they did for Jesus while they nailed him to
a cross
But he died up there on calvary so the world would not
be lost
So don't matter how they treat you if they slap you in
the face
Just remember Jesus loves you and on the cross he
took your place
Rise and shine in the early morning...
Rise and shine in the early morning...
