Well it's all been said and done she made her choice
and he's the one
And like the blues I'm back again I need a friend take
me in
Take me in your arms sweet lady hold me tight make it
right
Only your sweet love can save me take me in take me
in

So many time you've been a comfort to my soul
Time after time I took the love you gave for granted but
now I know
You're the one who always cared I'll make it up to you I
swear
If you can only try again oh say you can take me in
Take me in your arms sweet lady...
Take me in your arms sweet lady...
Take me in please take me in
