Looking back you and I remember all the times we
thought our love was dyin'
But even then breaking up we'd find just enough to turn
around and keep on tryin'
And this time I think we're gonna make it this time is
strong enough we can shake it
Hold me close and never let me go make forever
always like tonight
(You and I we took a long long time) oh I think we finally
got it right
[dobro]
Thinking back we both know we could have let it go
once or twice we almost did it
But it's love in the end that makes you try again and
you keep on tryin' till you get it
And this time we've got it all together this time we're
gonna make it last forever
Hold me close...
Oh I think we finally got it right
