Once I was enslaved to a human being  
What to do today now that I'm free  
Merry me, merry me, merry me  
Is this how it feels to realize one's dreams

Once I was enslaved to a human being  
My mother, my lover. Next who will it be  
Marry me, marry me, marry me  
I'm happiest in pursuit of liberty

Once I was enslaved to a human being  
One half the saint and the other the villain  
Marry me, marry me, marry me  
Kiss the only hand there in emergency  
Marry me, marry me, marry me  
Kiss the only hand there 'til eternity

Once I was enslaved to a human being  
What to do today now that I'm free  
Merry me, merry me, merry me  
Is this how it feels to realize my dreams
