They say hope is romantics, slow down like the Titanic
But my love is gigantic and I don't wanna make it quit
Love is like a fine wine, doesn't have a time line
I've been climbing up that great... till I found where man
fits
I've tried to... and juice, sometimes I win, sometimes I
loose
But I can't go wrong, doing the next right thing

I tangled with some titans, done my share of fighting
But I ain't been enlightened learned a few facts of life
I don't swear this small stuff, don't use a driver in the
rough
I don't make my marks... to the wife
I've tried to... and juice, sometimes I win, sometimes I
loose
But I can't go wrong, doing the next right thing
Doing the next right thing, yeah, yeah

I may stumble I may fall, but no more... head against
the wall
I go around it, I dig myself a hole
Think I'll turn out to the middle of my soul
I try and try to... and juice sometimes I win, sometimes I
loose
I'll never go wrong, doing the next right thing.
