And it's inside can't remember,  
I've always had this image in my mind  
Know when my mama had my daddy sing too loose  
that little twinkle in their eyes  
Despite the fact love didn't last  
I can't live in the past  
No I don't wanna be  
Afraid to love

There's cheaters and there's...  
And the ones you end up beating all the odds  
There's screamers and deceivers  
And the ones who have been smiled upon by God  
There's those like me and you who rise above  
The deep dark blue  
I swear I'll never be  
Afraid to love  
Afraid to love,

I've seen the... reinvent the institution of romance  
They surely fooled a... where deceive and love don't  
even stand a chance  
Our little joy, a little pain like the sun shine  
Like the rain  
I'll never be like them  
Afraid to love  
Afraid to love  
Afraid to love.
