I wanna say this like I've never heard it said before
Gotta say it in a way you'll keep forevermore
I know you feel it now
Radiating through my skin
But when you start to forget I wanna draw you back in

Romantic metaphors all just seem so overplayed
And anyway I lose all the words
When I see your face I'm so unspoken and overdue
And you deserve, you deserve to hear the truth

You should know
I think about you everyday
You should know
You're the smile upon my face
You should know
And I should be the one to say
I love you, I love you oh - a million ways

Na na na-na-na na na na-na-na na (x2)

And when we're walking through
The starlight and the smog
You stand in the spotlight of my thoughts
And you made me laugh so much I forgot
To let you know what's going on in my heart

You should know
I think about you everyday
You should know
You're the smile upon my face

You should know
And I should be the one to say
I love you, I love you oh - a million ways
Let me give it to you...

(Piano solo)

You are the only one I want to know better
You bring me so much joy it just gets better
And I can't break away from the love I feel

So I know it must be real

You should know
I think about you everyday
You should know
You're the smile upon my face
You should know
And I should be the one to say
I love you, I love you oh - a million ways

You should know
I think about you everyday
You should know
You're the smile upon my face
You should know
And I should be the one to say
I love you, I love you oh - a million ways
