

Tones™ "A New Morning"

Visit "[A New Morning](#)" on MotoLyrics.com

Open your eyes let the new day in I wake beside you
It's a new morning and the stars are gone
I'm into this mood
It's all around you..oh
Wake up
It's a new morning and I wake beside you

I've been thinking of a day when I first saw you
honey child honey child
There were some emotions coming my way honey child
honey child
There'd be some emotions it's a new
morning
A new morning
Open your eyes
I'm into this mood
It's something we do together
If you can open your eyes I'll show you
It's a new morning and I wake beside you
Open your eyes just open your eyes yeh
It's a new morning
It's something we do together
Just open your eyes
It's a new morning
La la la la
