Calling Earth to Earth now, warning warning  
Grunge it, blues it, like retro rock there's a time  
to stop  
Say bye bye to the world you knew  
There's a hole in the sky, my oh my  
It's a critical thing Co2 rising me oh my oh  
When the air is way too thin only angels fly  
When it gets too thin oh away we go  
Earth to Earth all of your science  
hole in the sky when will you apply it  
Earth to Earth what is the mission Planet is warming will  
anyone listen  
Earth to Earth what is the mission  
These were friendly skies  
Warning  
Under UV skies I've got dark sunglasses but my skin's  
on fire  
We can't get out we can't stay in  
Caught like rats in a garbage bin  
We all breathe out we all breathe in who knows where  
this air has been  
Earth to Earth fuel in the fire  
Earth to earth does anyone wonder why it's a  
gray old smoky sky  
And the world's a smaller place than when I was a boy

Oh blue skies where have you been  
There's a hole in the sky my oh my  
It's a critical thing Co2 rising  
No one wants to hear about it life as usual  
But the air causes death these days  
I feel alone when I sing  
Oh you turn your back where you going  
Earth to Earth all of your science hole in the sky  
when will you apply it  
Earth to Earth what is the mission planet is warming  
Oh Oh Oh  
Earth to Earth, what is the mission Earth to Earth  
Earth to Earth  
Earth to Earth, Earth to Earth Earth to Earth  
Calling Earth to Earth  
Shake up this backward lifestyle

Are you still smoking  
What is the mission
