Do you really mean alone now leave me alone ..leave
me alone

Do you really mean alone leave me alone ..leave me
alone

Her mind's a kite.. it follows the wind the invisible wind
She could be friends.. she could be friends but she
won't love

Does she really mean alone now ..leave me alone
..leave me alone

Does she really mean alone ..I'm on my own just leave
me alone

Just like a kite.. her heart's a kite on the now invisible
wind

She could be friends.. but she won't love..won't love

ooh..... like a kite

Her heart's a kite.. it follows the invisible wind
She can be friends but she won't love

she won't love, she won't love..... repeat to end
