Every night while the rooster sleeps  
I cook my lunch for the next day  
Chicken and chili's bubble and squeek  
Dont throw the seeds away  
There in the garden the chilis will grow  
Sure and plenty the rain comes  
In the shells of the coconut  
I get my mix for the rum

Island Living loving be simpleton  
Fun to ride on a wave she come she come  
Island living feels good to me  
At peace and happy Ill be  
Island living feels good to me  
At peace and happy Ill be

Every night when the sun goes down  
Many people come round  
Dance and singing their favorite stuff  
Passing their troubles away  
Low the moon goes down  
High high high the next day  
One more coconut tasty rum  
And into my hammock I sway

Island Living loving be simpleton  
Fun to ride on a wave she comes she come  
Island living feels good to me  
At peace and happy Ill be  
Island Living loving be simpleton  
Fun to ride on a wave she comes she come  
Island living feels good to me  
At peace and happy Ill be  
Island living feels good to me  
At peace and happy Ill be  
La la la la la la la put me under the coconut tree  
Island living feels good to me at peace and happy  
I'll just be  
On my little bit of beach
