Visit "[Majestic Sticks](#)" on MotoLyrics.com

Majestic sticks

Who's ticket twenty , one by six board

Kiln dried and dipped in some green preservative

Wood for the home he's fencing it in

But fences like coffins make no oxygen

Majestic Sticks tree tops of green in the blue sky

There on the hill swaying in the breeze so high

I love to see the trees

Love trees love trees I love

Its cool the air they make's invisible

Majestic trees

Trees we need every tree, every tree, all
the trees

Save the trees, save the trees,

Save the trees for the air we breathe

And the birds that fly in the choking CO2 skies
