Silent Traffic tones/A.J.Lester 85/2005

Tonight above my veil of sleep I walk this dream  
And take my winged formation to your destination  
You know I feel my life on a wing with you  
In my minds eye my moon  
I ll be near you  
Tonight above my sleeping state  
I ll say goodbye  
And fly by night to where we can be one again  
Tonight when all is still I m going through  
Into silent traffic where I ll be near you  
One with you to be .one with you  
One with you to be one with you  
Dreams of silent traffic take me to you  
I must go through  
Dreams of silent traffic  
Sometimes it feels so far away I need to fly  
Relax the hands the eyes  
The dream inside becomes the surface  
No stop signs, crowded highways interrupt my  
searching for that  
Dream of silent traffic where I feel your flame beneath  
my heart beat  
Hello It's me can you see me when you dream  
When you're on a far away horizon Dreams of  
silent traffic take me near you  
I will come as one without vehicle Silent as a Siamese  
cat  
I will be I will be there  
wa wa wa One with you to be one with you  
One with you to be one with you  
Dreams of silent traffic take me to you  
I must go through  
Into silent traffic floating out here I must go through  
Sometimes when I feel so far away I need to fly  
Relax my hands my heart  
The dream inside becomes the surface  
No stop signs crowded highways interrupt my  
searching for that  
Dream of silent traffic where I feel your flame beneath  
my heart beat

Its only just a dream  
Into silent traffic where I feel your flame  
Its only just a dream  
Into silent traffic where I feel your flame
