It seems she's living in a world of her own.  
Early morning makeup like clockwork she's gone  
I work the night clubs and I live the night life  
Now it seems I only see her while she sleeps

I must be gone on Saturday  
Life in this world is what you make it  
We get put up and down they spin the records round  
Oh girl it gets lonely  
I care about you only

Oh darling..now your eyes are closed again,  
Oh darling now your lips are close to mine  
And my heart beat's going to wake you  
I just can't do without you  
This time  
This time  
Woh say you understand the way I feel  
Darling we've been friends for some time  
Every beat of your heart is mine  
Say the things you said once more this time once more  
this time  
Darling every beat of your heart is mine  
This time

I must be gone on Saturday  
Life's what we make it I cant help it  
The clock is all unwound  
Its light I'm coming down  
This time can I wake you  
This time I have to shake you  
This time my finger tips this time just might slip  
This might be your favorite memory  
Oh oh oh  
This might be our favorite memory  
C'mon C'mon now darling  
Oh your eyes are closed again  
Oh oh darling,  
Oh your lips are close to mine  
And my heart beat's going to wake you  
I just can't do without you  
This time who oh oh this time

Could be the only time  
Oh oh oh this time
