heyhey hey.....
hey hey.....hey
whoo..... ya

baby when this all began when we said that love would
never end
sometime has past and we settle in.
now the "he say" and "she say" is hoverin
tell me what happened? We started changing up and
you and me were acting so different.
ohh and I know that you love me and I'm in love with
you, you know I know it's true! Believe it. Can we just
agree to disagree, and don't care who is right, can we
make mistakes, honest mistakes and don't see eye to
eye but when the dust clears and settled when it's said
and done when the night breaks and day finally
comes...

will you love me in the morning. hey morning.. hey
morning.. hey
after the evening will you leave me.
will you love me in the morning. hey morning.. hey
morning.. hey
After the suns up will you give up...
or love me in the morning.

I agree it's different what once was just ain't the same.
But weren't you expecting this? see when its true love
there will be some bitterness.
and now were so distant!! I know I'm not the woman
that I was, and you are not that man you were
but if you say that you love me! that when it's getting
rough you shouldn't even shake you up.

Can we just agree to disagree, and don't care who is
right, can we make mistakes, honest mistakes and
don't see eye to eye but when the dust clears and
settles when it's said and done when the night breaks
and day finally comes...

will you love me in the morning. hey morning.. hey

morning.. hey
after the evening will you leave me.
will you love me in the morning. hey morning.. hey
morning.. hey
Now the suns up will you give up...
or love me in the morning.

I know things ain't the that they way it used to be, but
it's okay baby this is worth it.
yeah we have doubts and we know love ain't perfect
BUT DON'T GIVE UP...

just love me in the morning, after the evening will you
leave me.
will you love a girl in the morning time. hey morning..
hey
morning.. hey
After the suns up will you give up...
or love me in the morning.

love me in the morning....
