Oh ohh noo ohh ohh
Gave you the benefit of the doubt
Till you showed me what your all about
True colours came out

Oh ohh

And your words couldnt hide the scent
Of the truth about where you been
Coz it was a fragrence I cant recognize..

Standing there
Scratching your head
Blood shot eyes, drunk with regret
(hanging yourself , turn deep over the edge)

Im done with this
Feeling like an idiot
Lovin you, Im over it
I just dont love you, dont love you no more

You, you are so yesterday
Never thought youd loose my love this way
Now youve come back begging me to stay

Say, you, you are so yesterday
Wont let you rain on my parade
Dont wanna hear a thing you say
So yesterday

Funny now how Ive gone
The little light in your head came on
Now youve realized this is all your fault

Oh ohh

Dont you wish you had a time machine
That way you could change history
Its the only way that you could be with me

Standing there

Scratching your head
Blood shot eyes, drunk with regret
(hanging yourself , ten feet over the edge)

Im done with this
Feeling like an idiot
Lovin you, Im over it
I just dont love you, dont love you no more.

You, you are so yesterday
Never thought youd loose my love this way
Now youve come back begging me to stay

Honey, you, you are so yesterday
Wont let you rain on my parade
Dont wanna hear a thing you say
So yesterday

And now you wanna reminisce
Say you wanna try again
Started with a little kiss
(we cant even repent) no no

now I never wanna see you, never wanna feel you
ever wanna hear you
I dont love you, dont need you, cant stand you
No More..

You, you are so yesterday
Never thought youd loose my love this way
Now youve come back begging me to stay)

Baby, you
you are so yesterday
Wont let you rain on my parade
Dont wanna hear a thing you say

So yesterday
So yesterday
So yesterday
