Can I share something with you ladies  
(What's that?)  
I've be all wrong about my baby  
(Well alright)  
That ain't meant for you to get me wrong

I ain't no stranger to love but this is different  
(I can't put my finger on it)  
But it's different  
(And ooh, I really want)  
'Cause I really need a swagger forgive me if I brag  
It's like a house I never left Like a fever  
I want to catch like a mountain that's worth the climb

I'm talking about this man of mine  
It's like money I wanna spend my homie lover friend  
He'll be with me to the end and he never failed me yet  
So I give him good loving in the morning  
(I got that)  
And late in the evening  
(I got that)  
And I hold him tight and I let him know

Daddy everything is alright now, what's good  
(I got all the love that he needs)  
What's good  
(Coming with it just the way he need it now)  
What's good  
(Off top you know it won't stop)  
He can get all of my love  
Now the thing that I love the most  
(What's that?)  
Is that he gets what I love the most  
(Well, alright)

Understanding all of my moods knowing just what to  
say and do  
And yes, I am the best and the rest he'll never miss  
And yes, he's dressed in finest what's next is to love  
Honor, protect what's next is just a cause and effect  
Of being so blessed, its like a house I never left  
(Never left)

Like a fever I want to catch  
(Wanna catch)  
Like a mountain that's worth the climb  
(Worth the climb)

I'm talking about this man of mine  
It's like money I wanna spend my homie lover friend  
He'll be with me to the end and he never failed me yet  
So I give him good loving in the morning

He can get all of my love now, what's good  
No boy, I got that

Now, what's good, what's good  
(Baby, tell me baby)  
Oh, good loving in the morning  
(I got that)  
And late in the evening  
(Ooh, I got that)  
And I hold him tight and I let him know

Daddy, everything will be alright now, what's good  
(I got all the love that he needs)

Ooh, yeah, what's good, what's good, what's good
