It's a fact that you and me together is a different kind  
of love

And there ain't too many people that have that

I like to think that you and I are one of a kind

Every day I pray you see

Without you there is no me

Every night that you're by my side

Is another night I realize that

[CHORUS]

What you like, what you like; I got it, babe

And I like what I like; and you got it, babe

The kinda thing will last forever

And that's why we'll always be together

'Cause every time I touch you baby

All I wanna do is love you baby

And everytime I see you baby

My only wish is to please you baby

You can have my time, you can have my heart

You can have my body, you can have it all

What you like, what you like; I got it, babe

I like what I like; you got it, babe

I assure you (assure you)

You can search the world for a hundred million girls

But none of them will love you like I do (I do)

I like to think that my love's one of a kind

No doubt I do agree

You and me the same to me

I really do adore what you give and so much more

[CHORUS]

What you like, what you like; I got it, babe

The kinda thing will last forever

And that's why we'll always be together

'Cause every time I touch you baby

All I wanna do is love you baby

And everytime I see you baby

My only wish is to please you baby

You can have my time, you can have my heart

You can have my body, you can have it all

What you like, what you like; I got it, babe  
I like what I like; you got it, babe

Until the end of time  
[[unclear]] you are mine  
So let 'em test our love  
I'm never breakin' up  
I trust you every day  
That's why you'll do the same  
[[There's no business slowing]]  
If we're meant to be

[CHORUS x2]  
And every time I touch you baby  
All I wanna do is love you baby  
And everytime I see you baby  
My only wish is to please you baby  
You can have my time, you can have my heart  
You can have my body, you can have it all  
What you like, what you like; I got it, babe  
I like what I like; you got it, babe

You got it, baby
