While we in the bed
Argument and in the bedroom where you want to hit
me
You should have listen
To sound when I go off
It don't make no sense
There no heartbeat
You should have listen to me

Have all thing think you might like have all thing think
you may like when we done you finish it over you
should have listen to the word when we go off no sense
there no
heart beat you should have listen

Only me have feeling
It you promise you it you I promise
How can I get through to you
I don't won't it be over tonight you should have listen
How you tell in your eyes
That you want to tell little bit action
Will you listen what have to say it all of you you should
have listen to me
I can't make up your mind for you darling well I should
lisent to you baby once again you should listen to me

It all over before night beign
You ask me tonight
I will able do what you want
You said you said you should have listen to you
Where the table is turn on you

Only me have this feeling
It you promise it you prmise it you I promise
How can I get through to you
I don't won't it be over tonight
You should have listen
How you tell in your eyes
That you want to tell little bit of action
Will you have listen what have to say it all of you you
should have listen to me

I can't make up your mind for you darling well I should
listen to you baby once again you should have listen to
