You've been wrong for so long
And I can't take the pain you bring me no more
You've been wrong for so long
And I can't take the pain you bring me no more

Well, well Friday night it's 10:15
You're working late am I naive
To believe that it's true, yeah
Finally I've realized
Your lies have opened up my eyes
This love affair now it's over, over

You've been wrong for so long
(For so long)
And I can't take the pain you bring me no more
(Oh no)
You've been wrong for so long
(So long)
And I can't take the pain you bring me no more
(No more)

Here we go all over again
You got me hangin' on a limb
I recommend that you leave
You leave me, what do I do?
What do I say, when I love you
And you don't feel the same
Don't wanna play no more game
I don't wanna play it now

You've been wrong for so long
(You've been wrong for so long)
And I can't take the pain you bring me no more
(Can't take the pain that you bring into my heart)
You've been wrong for so long
(Been wrong for so long that)
I can't take the pain you bring in no more
(You bring in no more)

Baby, won't you?
(Stop look)
Look and listen

(Listen to my heart it's crying for you)
Baby, won't you?
(Stop look)
Look and listen
(Listen to my heart it's crying for you)

Baby, won't you?
(Stop look)
Look and listen
(Listen to my heart it's crying for you)
Baby, won't you?
(Stop look)
Look and listen
(Listen to my heart it's crying for you)

Finally I'm over you I'm over you
(I can't take the pain you bring me)
(Yeah)
Yeah, finally I'm over you I'm over you
(I can't take the pain you bring me)
Yeah

Now, you've been
(You've been wrong for so long)
Baby you aim it right, aim it right?
(You've been wrong for so long)
Baby, you aim it right
Hurt my heart so bad
(You've been wrong for so long)
Baby, you aim it right aim it right?
(I can't take the pain you bring in no more)
Can't take the pain you bring no more

You've been wrong for so long
(You've been wrong for so long)
Now you can
(I can't take the pain you bring no more)
Can take the pain no more
