You gotta kick it once
You gotta kick it twice
You gotta kick it three times
Baby kick it right

Your body is moving up and your body is moving down
Your body is moving baby so move your body round

You gotta check it in your gotta check it out
You gotta check it baby so check it all about

You gotta kick it x3

You gotta kick it x2

You gotta kick it once
You gotta kick it twice
You gotta kick it three times
Baby kick it right

Your body is moving up and your body is moving down
Your body is moving baby so move your body round

You gotta check it in your gotta check it out
You gotta check it baby so check it all about

You gotta kick it...

Check it in
Check it out x3
Check it all about...

You gotta kick it...
