I love you in the light
I love you in the dark
And my mind has been made up
Because you threw the spark
That set my heart on fire
Now the stars are falling from the sky
They're on fire and falling
Straight into your eyes
Your eyes

I am invincible
As long as I'm in love with you
I am invincible
There is nothing we cannot do

Missing you everyday - its not enough for me
We make it so hard for ourselves so easily
And its funny how the one thing that makes me crazy
Is the same that keeps me sane
My mind's a million miles away
But nothing ever changes - no never change

Cause I am invincible
As long as I'm in love with you
I am invincible
There is nothing we cannot do

Your arms are my home
And I've been homesick for oh so long
So bring me back home
Back where I, back where I belong

Cause I am invincible
I am invincible

I am invincible
As long as I'm in love with you
I am invincible
There is nothing we cannot do

I am invincible
I am invincible as long as I'm in love

I'm in love with you
