

Tonight Is Glory **"It's Never Been So Quiet"**

Visit "[It's Never Been So Quiet](#)" on MotoLyrics.com

This is our last chance

And everything is shades of grey
Like everyone has gone
And disappeared on me
I know
I know were close now
The sky has turned to black and everyone is out
Don't be afraid
We're not alone

This is our last chance breathe it in...
The sun is setting
I can make it go away
This is our last chance
Don't be afraid
Don't be afraid were not alone

Remember thinking and feeling that we were invincible
(The wind stops it's never been this quiet)
And there's need for your eyes
The darkness surrounds
Surrounds us
All breathe it in
Breathe it in

Covered in flames and burning to silence
Don't you
Don't you be afraid I...
It will go away

This is our last chance to say goodbye
