Here we go again tonight  
We both know it ain't right  
Maybe we just fell in love too soon  
You like to dance, I like to sing  
You want romance, you think it's everything  
Maybe we just fell in love too soon

Was it just infatuation?  
Did we get caught in the rush?  
One little miscalculation  
We both expected too much

There's what you want and what you get  
There's satisfaction and there's regret  
Maybe we just fell in love too soon  
Here we are in this great big room  
You want the stars, I want the moon  
Maybe we just fell in love too soon
