Let me be your wings
Let me be your only love
Let me take you far beyond the stars
Let me be your wings
Let me lift you high above
Everything we're dreaming of will soon be ours
Anything that you desire
Anything at all (Anything at all)
Everyday I'll take you higher
And I'll never let you fall

Let me be your wings
Leave behind the world you know
For another world or wondrous things
(Wondrous things are sure to happen)
We'll see the universe and dance on Saturn's rings
Fly with me and I will be your wings
Anything that you desire
Anything at all
Every day I'll take you higher
And I'll never let you fall

Let me be your wings
(Let me be your wings)
Let me be your only love
Get ready for another world of wondrous things
(Wondrous things)
We'll see the universe and dance on Saturn's rings
Heaven isn't too far
Heaven is where you are
Stay with me and
Let me be your wings
