"We Have All The Time In The World"

Visit "[We Have All The Time In The World](#)" on MotoLyrics.com

We have all the time in the world
Time enough for life to unfold
All the precious things life has in store

And we got all the love in the world
If that's all we have
You will find, we need nothing more

Every step of the way will find us
With the cares of the world far behind us

We have all the time in the world
Just for love, nothing more, nothing less
Only love

Every step of the way will find us
With the cares of the world far behind us

We have all the time in the world
Just for love, nothing more, nothing less
Only love

Only love
