There was a time I was full of doubt
Trying so hard not to be left out
I was like a child so eager to please
How could I have known this was meant to be

Out of the blue love has found a way
And everything has fallen into place
So I do believe angels do exist
Guided by love too strong to resist

You changed my life so much
I live just for your touch
You're all that I'll ever need
You bring the best out of me

When things go wrong then I look to you
To keep me strong and to pull me through
Sometimes I'm amazed and I must confess
I just can't believe I could be so blessed
You've changed my life so much
I live just for your touch
You're all I'll ever need
You bring the best out of me

When things go wrong I look to you
To keep me strong and to pull me through
Sometimes I'm amazed and I must confess
I just can't believe that I could be so blessed

You've changed my life so much
I live just for your touch
You're all, you're all I ever need
You bring the best, the best out of me, the best out of
me
You bring the best out of me
