Lost In Your Love Tony Hadley

=====

Beneath the flying stars  
Myself and sorrowed heart  
Was rolling dice with destiny  
We played for state of mind  
I lost of course and find  
That half of you is half of me  
What can I do? What can I do?  
When I look at you. When I look at you

\* I'm lost with my heart up in flame  
With a head of clouds as I call out your name  
Won't quit when the going gets rough  
Only one small step from heaven lost in your love

Across a darkening world  
The conversations turn  
To dream and streams that join and flow  
Of a shoreline hand and hand  
Seems the more I understand  
The less I really need to know  
I need to know  
Just let it free then let it flow  
And as I watch it go

(repeat \*)

But it hurts a little baby  
See it's getting to me now  
All this breaking down of walls  
All this shaking of the tree  
All in the name of liberty

(repeat \*)

Nah, nah, nah..
