I'm Still Not Sure
Words & Music by Tony Harris

Every day
I'm thinking
I can't help it if I'm hesitating

Every day
I'm trying
I can't help it if I'm agitated

Every day
I'm just not sure

He says that he really loves me
That he really really cares
He says that he really loves me
That there's magic in the air

But I'm not sure

You came last
You swept into my heart
I've been waiting for you so long

You came along
So right a/nd so wrong
I've been waiting for you so long

So very long

He says somethings changed about me
That I'm not the girl he knew
He says somethings strange about me
Something's weighing down on you

But he's not too sure

You came last
You tore into my heart
I've been waiting for you so long

You came along
So right and so wrong
I've been waiting for you so long

But your not sure

Every day
I'm thinking
I can't help it if I'm hesitating
Every day - it's such a mess

You came last
You tore into my heart
I've been waiting for you so long

You came along
So right a/nd so wrong
I've been waiting for you so long

But your not sure

I can't help it if I'm aggravated

Every day - it's such a mess

I feel so stressed
