How, how can you take me for a fool
Why would you want to be so cruel
Hey girl, you said you loved me
Now, now that you left me all alone
The love I felt for you was strong
Hey girl, how could you leave me
Don't you remember
You said that you'd be true
But you left me standing here like a fool
How could you hurt me
How could you be untrue
I was the only, the only one for you

Chorus:
You left scars on my heart
Their from you
You left scars on my heart
Scars on my heart girl
How could you be untrue
You treat me like a fool
You left scars on my heart
You left scars on my heart

I, I tried to give you all my love
As tears were falling from above
Hey girl, why do you cry
I remember when you used to say
You love me each and every day
Hey girl, how could you lie
Don't you remember
You said that you'd be true
But you left me standing here like a fool
How could you hurt me
How could you be untrue
I was the only, the only one for you

Chorus(2x)
