Oh can I lie here, can I whisper; can I tell you anything
that you want to hear,
Is it thoughts, is it feelings, is it what you need, can I
make you feel good,
It's just something that I thought that you'd like, in a
world that's dying,
Oh I can see you smiling. Oh, can I do this for you?

In the pale and lonely light you feel so exciting ah,
I fail the words, I need to speak to tell you how,

You can love who you love, you can be who you want, in
the theater of dreams,
Oh, you can love who you love, you can be who you
want, in the theater of dreams. In the theater of
dreams.

Oh can I touch you, can I hold you, I can do anything,
that you want me to,
Does it hurt, is it OK is it what you need to make you
feel good,
I got something that I think that you'd like, in a world
that's changing,
Oh I can feel you smiling, Oh can I do this for you?
In a pale and lonely life, you seem so exciting ah,
I fail the words, I need to speak to tell you how.

You can love who you love, you can be who you want, in
the theater of dreams.
Oh, you can love who you love, you can be who you
want, in the theater of dreams.

This is where you open up your mind, yeah.
This is where you lose, lose your chains of time.
In the theater of dreams.

You can love who you love, you can be who you want, in
the theater of dreams.
Oh, you can love who you love, you can be who you
want, in the theater of dreams.

You can love who you love, you can be who you want, in

the theater of dreams.

Oh, you can love who you love, you can be who you want, in the theater of dreams.

In the theater of dreams, yeah.

Oh can I lie here, can I whisper, can I tell you anything that you want to hear,

Is it thoughts, is it feelings, is it what you need, can I make you feel good,

It's just something that I thought you'd like, in a world that's dying,

Oh I can see you smiling,

Oh, can I do this for you?

In the pale and lonely light you feel so exciting ah,

I fail the words, I need to speak to tell you how,

You can love who you love, you can be who you want, in the theater of dreams.

Oh, you can love who you love, you can be who you want, in the theater of dreams. In the theater of dreams.

This is where you open up your mind yeah.

This is where you lose, lose your chains of time.

In the theater of dreams.

You can love who you love, you can be who you want, in the theater of dreams.

Oh, you can love who you love, you can be who you want in the theater of dreams.

You can love who you love, you can be who you want, in the theater of dreams.

Oh, you can love who you love, you can be who you want in the theater of dreams.

In the theater of dreams.
